TOTAL SECURITY SOLUTIONS

We believe that there are a number of interrelated components within Total Security Solutions.

Guarding Solutions

CISS provides guards to a large number of industries and commercial establishments across the country. Range of services include manned guarding, vehicle and foot patrols, control room management and CCTV monitoring, among others. Our well-trained and experienced security personnel are deployed across manufacturing locations, banks, public infrastructure, malls, hospitals, commercial establishments, offices and residential hubs.

Well-trained guards are well-versed with basic security skills such as basic fire-fighting, first-aid, self-defense, crowd management, among others. We also impart soft skills training to our guards and train them in customer interaction, discipline, good behaviors and social mannerisms.

Strategic Security Partnerships

CISS has entered into a number of strategic partnerships with global players in order to provide comprehensive and integrated electronic security solutions.

Security Consultancy Services

Our recommendation for a Total Security Solution begins with a comprehensive threat and risk assessment. The objective of this analysis is to identify security vulnerabilities and propose solutions to mitigate them.

Integrated Services

CISS specializes in offering a hybrid service of electronic security solutions aided by guards to meet its clients' specific requirements. These solutions include:

- Control Room Operations
- Crisis Management and Response
- Management and Reporting
- E-surveillance and Access Control

Innovation and Continuous Improvement Program

Continuous improvement is essential to security and is improved through optimization brought about by upgrading of processes and technology from time to time. Our experience of delivering security services leads us to believe that there is considerable scope for innovation in improving skills of people, improving processes and designing security services offerings.

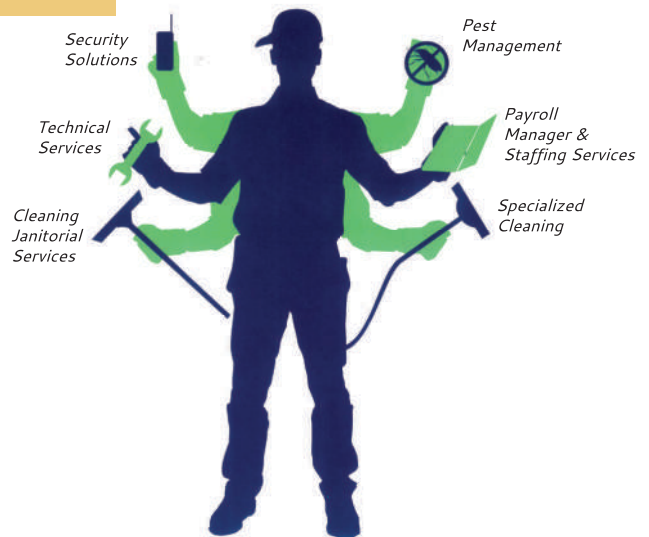

Other Allied Services

CISS additionally offer professional, effective services, assisting its clients to carry out forensic investigation, security surveys and audits, fire safety audits, security system design and execution, etc.

FACILITY MANAGEMENT

AURA Facilities Management Private Limited (AURA), a group company of CISS is a leading provider of Facilities Management Services, offering integrated services involving housekeeping, janitorial services, utility management, specialized interior and exterior cleaning, and payroll management. A young and dynamic organization, AURA was set-up in 2005 by two first-generation professional entrepreneurs. At its core lies a well-trained and experienced manpower base who have satisfied customers across diverse sectors—corporates, malls, real estate developers, private property owners, hospitals, educational institutes and banks.

ELECTRONIC SECURITY SOLUTIONS

CISS Systems and Electronic Security Solutions LLP, a group company of CISS specializes in providing electronic security solutions. These solutions include:

- Setting up CCTV systems
- Monitoring remotely via command centre
- Use of video analytics for event-based security solutions
- Online tracking and monitoring of various client assets via GPS solutions
- Designated point patrolling using non GPS based software solutions

SKILL DEVELOPMENT

CISS Academy For Skill Human Development Private Limited (CISS Academy) is a subsidiary of CISS and is actively engaged in upgrading skills of blue-collar manpower. CISS Academy imparts training, runs skill development programmes and facilitates placement of eligible candidates. CISS Academy has fully-equipped residential training centres across India.

These centres are affiliated to National Skill Development Corporation (NSDC) and the training certification at the centres is granted by Skill India and MEPSC (Management and Entrepreneurship and Professional Skills Council). In a short span of time, CISS Academy has trained and placed over 8,000 candidates across the country.
